What is the primary way of internet access for students? And how long are they on?

### Primary way of internet access:

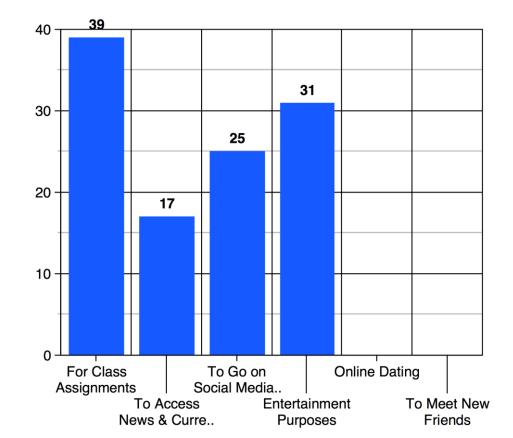

Hours Per Day Spent on the Internet

### What are the top reasons they are online?

Top reasons are for class assignments, entertainment, social media and to access news and current events.

#### Primary Purpose to Use the Internet

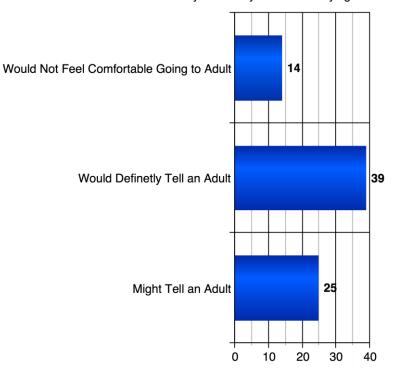

## What barrier, if any, do they have to accessing the internet?

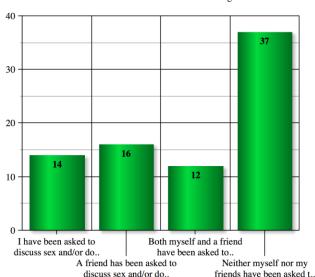

**EXPLAIN HERE** 

# What has been their experience with online bullying or sexting?

#### How Many Will Notify of Online Bullying

Have you or a friend ever been asked to discuss sex, or do something sexual online with a stranger?

### What is your community doing (if anything) to address internet access and safety?

### Recommendation and Conclusion

- A safety issue has emerged from the lack of parental supervision. We would like to have an Internet Safety Day to talk about the consequences and risks of having no restrictions.
- Theirs always risks and consequences due to poor internet management. This can affect your future. But Latinas are capable of achieving success through the use of proper internet management. We stand for a safety use of internet.
