MIAMI, September 23, 2021 – NBCUniversal Telemundo Enterprises, the leading media company serving Hispanics in the U.S. and Puerto Rico, today released an in-depth national poll of the Latina community designed to develop insights on their current outlook at a critical moment in American history. In partnership with Hispanas Organized for Political Equality (HOPE) and Latino Victory Foundation, “The Latina Pulse: Champions of Change” is a detailed poll which surveyed Latinas across wide-ranging topics including education, healthcare, workforce and politics, drawing actionable findings to better understand and engage this fast-growing and influential demographic.

“This new poll shows that Latinas are leveraging their growing influence, bicultural heritage and personal strength to drive progress for our nation,” said Mónica Gil, EVP, Chief Administrative & Marketing Officer at NBCUniversal Telemundo Enterprises. “With 31 million Latinas across the U.S. and Puerto Rico, they are entrepreneurial, highly skilled and hold significant economic and political influence to lead positive outcomes across key priorities in our country.”

As the Latina population continues to grow, they are building their representation by breaking barriers, advancing their education, opening their own businesses, staying in the workforce longer and supporting elected officials that address systemic inequalities. Despite continuing to face challenges in the healthcare and workforce systems, which have only been exacerbated by the COVID-19 pandemic, Latinas demonstrated resilience and confidence, empowers them to be optimistic and energized about the future.

“Latinas are drivers of the U.S. economy and have always been positive contributors to American society,” said Helen Torres, Executive Director and CEO of HOPE. “Our ability to overcome the barriers of racism and sexism, while starting businesses, working essential jobs and protecting our families is a demonstration of our determination and perseverance. Latinas are overwhelmingly leading and calling for change to ensure their families and communities are surviving and thriving. The success of the United States is inexorably tied to Latina success.”
“Latinas in the United States are a force that drives our community towards social justice, equity, and political power,” said Nathalie Rayes, President and CEO of Latino Victory Foundation. “For decades, Latinas have harnessed social and political engagement and women’s movements, fought for women’s rights, and strengthened political power. Latinas are a powerhouse electoral bloc who play a pivotal role in the electoral process. We hope this poll will help magnify the critical role Latinas play in our country’s prosperity and well-being and identify the challenges that Latinas face to mend these gaps with solutions and opportunities.”
